25 YEAR RE-REVIEW

1. Intelligence Techniques Course #3 ended on Friday, 18 December. Unfortunately, the speaker who was to give the final address, was called out of town at the last minute, so rather than get just any one we dispensed with the formality and permitted the students to leave early, much to their pleasure. The course was a success, and the students in their critiques were enthusiastic. A fuller report will be presented later.

3. Mr. is expected aboard on 15 January. With his experience in both the teaching and intelligence fields he will be a valuable member of the staff.

4. With the particularly well arranged holiday season the pitter and patter of little feet in the corridors has been noticeably absent during the past few days. This has been a fine opportunity to contemplate the accomplishments of 1956 and to project oneself into 1957.
